***Response to Applicant's Remarks***

Applicant's response on August 24, 2009 filed in response to the Final Office Action dated March 18, 2009 has been received and duly noted.

In view of this response, the status of the rejections/objections of record is as follows:

**35 USC § 112 Rejection(s)**

The 112-1<sup>st</sup> rejection of claims 1, 4-10, 12, 13, 15-17 and 23-25 regarding the scope of enablement for X and Y have not been overcome and remain rejected.

Applicant has amended variable "X" to be the following:

X has from 1 to 10 carbon atoms and from 1 to 10 hetero atoms.

According to Applicant's amendments, Applicant claims to be enabled for the following structures of variable X for instance:

Clearly, Applicant is not enabled for the full scope of the variable X as claimed and has not overcome rejection.

**DETAILED ACTION**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 4-10, 12, 13, 16,17, 23 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "1-3 heteroatoms selected from the group consisting of O and N".

However, claim 5 (which is dependent on claim 1) recites "1-10 heteroatoms are each selected from the group consisting of nitrogen, oxygen, sulfur and phosphorus atoms". There is insufficient antecedent basis for this limitation in the claim.

However, claim 4 (which is dependent on claim 1) recites "X has 1-6 heteroatoms". There is insufficient antecedent basis for this limitation in the claim.

The term "has" makes the claim indefinite as it could include any other group as long as it has an alkyl alkylphenyl, alkylcycloalkyl, phenyl, or alkyl, alkylphenyl, or alkylcycloalkyl

The term "X is defined by an alkyl, alkylcycloalkyl where the alkyl is interrupted by heteroatoms O and N" in claim 1. Also in claim 1 the term "X is defined as 1-10 carbon atoms and from 1-10 heteroatoms". There are two definitions for the term "X" which renders the claim indefinite. One of ordinary skill in the art would not be

reasonably apprised of the scope of the invention. Examiner does not understand Applicant's intended meaning of said term.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

### ***Conclusion***

### ***Status of the Claims***

Claims 1, 4-10, 12, 13, 15-17 and 23-25 are pending and rejected.

Claims 2, 3, 11, 14 and 18-22 have been cancelled.

Claims 23-25 are new.

Art Unit: 1625

Applicant is respectfully reminded that it is required that all claims be amended to elected group. Examiner also warns Applicant not to introduce new matter when amending.
